WEEPING BESIDE HIS DEAD WIFE

The Ex-Emperor Not Likely to Long Survive Bis Consort.

GLADSTONE EIGHTY YEARS OLD

The Czar in Mortal Terror, the Army Being Dis affected-Stanley I scelved by Tippeo Tib, the Arso Potentate.

Oronto, Dec. 22.—Dom Pedro has received many telegrams of condolenceron the doath of his wife. Among them was one from Queen Victoria. When it became evident that the end was raidly approaching, the ex-empress was advised to summon her confessor. Although in great agony, the replied: "Yes, but we must quant the emperor; he will give instructions."

Her hast words were: "Legged that my children and grandchildren it en not cround me that I might bless them for the last time. Alas, Brazill Brazill, that beautiful country! I can nover return them."

Brezill, that beautiful country! I can never return there."

Dom Pedro drose early this morning and attended mass. He was greatly dejected, and so weak that his decires were obliged to support him. Much anxiety is left for his condition.

When Dom Pedro arrived at his pediation of his dead wite he knelt ard kissed her forchead. He appeared unable to rrove, and did not speak for twenty minutes. Then he had: "I have out perioned the most bitter trial God could inflict upon his. Her faithful and affectionate companion, which has sustained are for forty-six years, God's

will be done."

Then, noticing his wife's eyes still open, he commanded bimself and exclaimed: "Is it possible that those deer, kind eyes will never again brighton when they see me?" Having closed the

had ended. The acry had, however, are ady been sent averywhere.

Later in the evaning Dom Federo sent dispatches sunouncing its death of his wife, to radigue mongreps. The Brazilian minister at Lisbon has notified the provisional government in Brazil of the death of the cre-impress.

To-day the body was embalmed and transferred to the Chapel Ardente. The interment will be in the Panticou. MADRID, Dec. 26.-When the Count and Counter

I appreciate, in trying to reconcile orders with propriety, the perplexity of the little maid, who bidden to learn to "wim was yet adjured, Nowgo, my darling, many your clothes on a bickory limb and don't go near the water."

The stoutest apostic of the church they say, is the missionary, and the missionary wherever he unfurls his flag, will never find himself in deoper need of unction and address than I bidden to-might to plant the standard of a Southern democratin Boston's banquet hall, and to discuss the problems of the races in the homes of Phillips and of Sumner. But, Mr President if a purpose to speak in perfect frankness and sincerily, if ennest understanding of the vast interests involved, if a crisecrating sense of what disaster may follow further misumerstanding and estrangement, if these may be counted to stendy undisciplined speech, and to strengthen in untried arm—then, sir, I shall find the courage to proceed My people, you brothers in the South-brothers in blood, in destiny, in all that is best in our past and future—are so beset with this problem that their very exproceed My people, you brothers in the South—brothers in blood, in destiny, in all that is beat in our past and future—are so beset with this problem that their very existence depends or its right solution. Nor are they wholly to blame for its presence. The slave shins of the republic sailed from your ports, the slaves worked in our fields. You will not defend the traffic nor I the institution. But I do here declare that it in its wise and humane administration in lifting the slave to heights of which he had not dreamed in his savage home, and giving him a happiness he has not yet found: I freedom our fathers left their sons a saving and excellent heritage. In the sform of war this institution was dost. I thank Gol as hearily as you do that human glave y has gone forever from American soil. But the freedman remains. With him a proticin without precedent or parallel. Note its appalling conditions. Two utterly dissimilar races on the same soil—with equ. I political and civil rights—almost equal in numbers, but terribly unequal in intellige ice and responsibility—each pledged again t fusion—one for a century in servitude to the other, and freed at last by a desolating war—the experiment sought by neither but approached by both with doubt—threa are the conditions. Under these, adverse, at every point we are required to carry these two races in peace and nonor to the citd.

A freed select in the store of the back and the store in the light and the light and in the light. A FREE BALLOT

When will the black cast a free ballot? When ignorance anywhere is not lominated by the will of the intelligent. When the by the will of the intelligent. When the luborer anywhere easts a vote published red by his boxs. When the vote of the poor anywhere is not influenced by the power of the rich. When the strong and the steadast do not everywhere control the suffrage of the weak and shift est—then, and not till them will the ballot of the negro te free. The negro vote can never control in the South, and it would be well if partisans at the North would understand this. I have seen the white people of a state the 't about by black hosts until their fate seemed scaled. But, sir some braye man, banding them to But, sir some braye man, banding them to gether, would rise an Elshah rose in belea-querred Samiria, and, touching their eyes with faith, but them look abroad to see the very air "filled with the chariots of Israel and the horsemen thereof" If there is any human force that cannot be with stood it is the power of the banded intelligence and responsibility of a free community. Against it numbers and cerruption cannot prevail It cannot be forbidden in the taw, or di-yorced in force. It is the inalier able right It numbers and corruption cannot prevail
It cannot be forbidden in the law, or di

majesty of intelligence and responsibility,
massed and unlined for the protection
of its homes and the preservation of
its libert. That, sr, isour reinnece and our

It is a free and independent in the heids of the government it helped to the hinds of the government it helped to this Union North or South, be delivered up into the control of an ignorant and inferior race. We wrested our state governments from negro supremacy when the Pederal dumbent rolled close to the ballot-box and Pederal bayonels hedged it deeper about than will ever again be paintified in this free government. But, are, though the cannon of this republic thunder in every voting at trict of the South, we still should find in the mercy of God the means and the comage to prevent its restablishment. BLT THE SOUTH LOVIS THE LOVE

Meantime, we treat the negro furly, measstring to him justice in the fullness the strong should give to the weak, and leading him in the stoadfast ways of citizen-hip, that he may no longer be the prey of the uncrupulous and the sport of the thought-less We open to him every pursu t in which he can pro-per and seek to troaden hise training and capacity. We seek to hold his confidence and thendship and it pin him to the soil with ownership that he may citch in the fire of his own hearthstone that sense of responsibility he shiftless an next know. And we gather him into that all ance of intelligence and responsibility that, though it now rune close to racial lines welcomes the responsible and intelligent of any race. By this course, continued no our judgment and justified in the progress already made we hope to progress slowly but surely to the end.

The love we feel for that race you cannot measure nor comprehend. As I attest it here the sout it of an old black measures from uring to him justice in the fullness the

The love we feel for that race you cannot measure nor comprehend. As I attest it here the spirit of an old black manny, from her home up there looks down to blevs, and through the tunnel of this night steals the sweet music of her crootings as thirty years ago the held me in her black arms and led me smiling into sleep. This scene yearshe as I smak and I catch a vision of an old Southern home with its loft; pillars and its white pigeons fluttering down through the golden air. I see women with strained and anxious faces, and children alert yet helpless. I bee night come down with its dangers and its apprehensions; and in a big homely room I feel on my tired head the touch of loving hands—now worn and windled, but fairer to me yet than the hands of mostal woman, and stronger jet to lead me than the hands of mostal in —as they be supper the true.

With the praises of Hood's Sarsaphrilla, soon after this modicine was offered at the drug store of C. I. Hood & Co. Everybody was asionished when they heard of the cure of Miss Sarah Widtter. For many years she had suffered more than can be toth, from scrothlous sores. For two rears she was unable to be out of the house, and rears sho was unable to be out of the house, and for alx months was obliged to use cruches to get round her room. When she began to take Hood's Sarsaparills she had thirteen scrofthous sores on her body, was thin in fiesh, with little appointe, and unable to sleep nights on account of pain and increousness. Hefore she had taken the whele of a bottle of Heod's Sarsaparilla there was a great change for the bottler, and after a time the sores had all healed and she was in general good field. All this was ten years ago, and the benefit from Houd's Sarsaparilla has continued ever since. Miss Willtior now resides at No. 25 Branch street, Lowell, Miss. We will send full particulars of this case to all who desire.

A careful investigation of the situation which exists on Be-lingham Bay to-day will convince any shrewd man of affairs that the foundation of a great city has been laid at Fairhaven and that the work to that end has begut in carnest. Natural resources (coal, iron, lumber and agriculture) are there a inexheustib e quantities; it has an incomparable harbor; gr at mills are building; rows of brick buildings, including a magnificent hetel, are being created; miles of streets are being graded and sidewalks laid; new industries are stringing up and new lines of business are being opened every day. Shipping is increasing every hour. People are flocking there by the tholeshols and the tributary country is settling with a phenomenal rabidity. Farbaven has two radiroads building in different directions. The twan is, moreover, backet up by a powerful land company that is nursing, building and developing it on liberal and broad gauge principles. Any sagacious person, who will calmy look the situation over, can not fail to recognize the fact that the history of Tacoma is to be repeated at Fairhayen. history of Tacoma is to be repeated at Fairhayen.

EAST PAIRHAVEN ADDITION is less than a mile back of the town and commands a beautiful view of the town and bay. Streets are 80 and 10 fee: wide and correspond with the streets of Fairhaven. Donovan avenue, 85 fee: wide, is being improved its entire distance, from Fairhaven through East Fairhaven, and plaqued, and will be the main thoroughfare from Happy Valley and the outlying additions.

#### PROGLESS OF THE YEAR.

Nea ly all the matter for the New Year's Orrection is now in hatel, and we think we are ju. slifted in saying that the number will be the most comprehensive one ever issued A great amount of labor has been expended on it. The review of the progress of the year is no confined to Portland or even to Oregon, it covers the Pacific Northwest Wash noten has large space in it, so has

Idaho Nearly all points have been visited by writers sent especially to obtain matter for the comprehensive review. It is an be said, further that the business of the Northwest will be better represented in this number than in any other namer ever other cites and our writers have endeavored to deal with all localities in a spirit of filtries, and with as much fullness of de ini as limits would allow. The review will show that great progress

has been made throughout the year. In the whole course of our history there has been nothing a compare with it. We may in deed regard it as doubtful whether there has been as much progress throughout the North yest in industry, business, popula-tion, wealth and general development durmage during the years berefolore as has been mage during the year 1869. All the signs are, moreover, that the report of 1890 will

BOXIAG VERSUS PRIZE FIGHTING

Bexiste with soft gloves is an admirable menns of bodily development. It legicles a man how to use both lands with equal read use makes the physical carriage erect, the movement of the limbs greeful and Best of a lat is an object lesson in diet and extress since excellence in boxing demands a bodily endition incompatible with intemperance in the pleasures of the table or the wine cup. Every youth who seeks to be a vigorous and enduring athlete finds out early that wane, venery und gross feeding are forbidden Greece taught her young men early this lesson and the result was the production of a race that for beauty, strength and agality has never been equaled Boxing is less exhausting and, when prepared with proper gloves has none of the brutality and violence of football It promotes grace and symmetry better than any boddy exercise s ve fencing and is quite as good to train the pupil to be quick with eve and to be nt once cool and resolute There seems to be no good reason why how ng should not be part of the bodily framing of the young, with this qualification that no brutality of ary sort should be perm thed in its practice and that low associa-tions should be avoided

Bul boxing is not prize fighting Prize fighting i inexcusably barbarous and absolutely immoral. The difference between a truned be ver and a prize fighter is as clear as the difference between a gentlemen who rings the bell" in a shooting gallery and a drunten lesperado who uses his skill with the pistol to force his fellow man to submit to wanter insult. It is the difference be tween a voman whose beauty is married to a virtuou purpose and a women whose su perior by uty is sold by her, in the market place as isolled dove. This moral difference between training an exceptionally fine body to its highest condition of grace, leavily againty, endurance and strength, its highest condition, and harmony with a well equipped mmd, and training on exceptionally fine body for sale in the p prince, is what has finally driven prize fighting from the situation of comprize fighting from the situation of comparative respectability enjoyed by it in the last cet tiry—when English—gentlemen would fight a cabman or a coal heaver—Itis—not het, rears since the Marquis of Water—not het, rears since the Marquis of Water—not het, rears since the Marquis of Water—not het is rear since the that hit years since the Marania of ford of the brilliant military family of Beresford used to force fights of this sort with the jotice both in New York and Lon don busta day in Lugland or America no man of any character would do this although boxing h: s more pupils to day than it had when prize fighters were putronized by men of high rank and character The old Enghish idea that prize fighting promoted the courage and hardthood necessary to a great military people was an absurd error of judg ment that was not fully eradicated from the English popular mind until after the close linglish nopular mind until after the close of her Naroteonic wars. The world then began to see that ferocious men were seldom courageous save when they 'had the drop' on their adversary that braze lighters were seldom soldiers of superior quality, that the Iticate, tender sons of Laghan clergymen like Nelson, were the coolest and most daring men in the direct hour of battle. In the charge of the Laght Fixede. battle In the charge of the Light Brigade. Sir Geo gi Paget led his soundron like a hero perried the blows of the enemy but scorned to slay a single Russian with his own han? and Marshal Murat declared that he had led a hundred charges but had that he had led a hundred energies but had seldon drawn his sword, fending off blows with his riding whip. And yet he stands in a to cohiev success. And yet he stands in a saw way to be ultimately lost to industrial life by going back to the prize ring which he once malifully deserted. #### A MOVE IN THE RIGHT DIRECTION Somo System Must Be Adopted Regarding the Stringing of Electric Wires

The common council has ordered that all it o electric are lights heretofore hung over the center of streets shall be removed and placed on poles at one side of the street or rather on brack ets projecting six feet out from the poles. This removes a large number of electric whree from across the streets like electric company will begit making the necessary changes soon. This is a make lawed lessaging the design for the design of the streets. is a move loward lessening the danger from ele-tric wires and is a step in the right direction becoming more evident every day that ken extern of placing the wires on the streets me system of placing the wires on the streets must be adopted. As on money of the council says, the has a subject of the strenging wires which has been places subject of stringing wires which has been places subject of the number of wires especially telephants from the number of wires especially telephants and they are run in all directions crossing each other on every corner and it is from this crossing of wires comes the greatest danger. The council sees that if some system were adopted in this matter the danger of accidents would be much lessened and a great number of the poles along the atrects could be dispensed with The obstacle in the way bringing about such arrangement as this seems to be a want of larmony among the different companies owning the poles and wires on the streets. The council has poles and wires on the streets. The council many and if it cannot succeed mout this harmony and if it cannot succeed in policially have to go uncerground or somewhere else

NO BOOM IN SPOKANE PALLS.

A Preminent Capitalist Tells About the

Real Estate Movement

The High Prices Realized for Some Property

Not a Criterion of Values-Rebuild-

ing the Oity.

W. A. Mears, the well known capitalist of Suchane Falls, was in the city yesterday. He was seen at the Arlington club by an Onmontan reporter in the afternoon. Speaking about Spokane Falls be set.

Falls, he said:
"People outsider of Spokane Falls and especially in Portland have an idea that prices of real estate in Spokane Fall are out of proportion to the size of the town and its buginess, and higher than in Sentite. Taxoma and other large cities in the Sentite. Taxoma and other large cities in the Northwest. They seem to think that we have nothing else to do but to sit down and xamble on real cetate; that, a clied a lot to B, B sells it to O and C sells it buck again to A at a largely advanced price.
"In my outside these them there there is no the sell of the sell of

vanced price.

"In my opinion these ideas have been promoted by two pieces of news printed in The Oregonian, the first being that several lots had been sold right after the first sitting a front foot, the second that our real estate transfers for 1839 have been \$17,050,000, as compared with \$12,000,000 in cities of the same size in the Northwest.

cities of the same size in the Northwest.

THE PRICES NOT A CHITZHION.

'Ht is true that three lots were sold at \$1000 per front [oot, but the circumstances were peculiar and the price paid is not a criterion of the value of real estate in Spokame Falls. The lots were all on the exeme to Riverside avenue and Howard street, which is geographically and practically the business center of the city. They were bought by banks, two of which had been doing business on the lots they bought said jithe principal stockholders of which busined large amounts of real estate in the immediate yieluity. The fire, of course, obliterated the old business lines, and it was absolutely necessary for them to establish their banks there to keep the center of trade in that locality; in other words, they were forced to buy, and sellers took, advantage of the structure.

situation. "No other sale has taken place at so high a price. But supposting this price was the customary price for priparty in the center of the city, it still its under the price of property in the business centers of surrounding cities. A year ago lots were sold on Pacific avenue, in Tacoma, at \$1200 a front foot has been refused in Beattle, while has summer the southeast corner of Single while has summer the southeast southeast southeast summer the southeast south

Fine Outlook for The Dailes.

The Dates times Mountaineer.

We believe next year will witness greater program in The Dates than any former one. The right sparit is conting to the surface, and people who have hithere been apathetic regarding entryptes are plecoming awakened to our possibilities as a great commercial point. The fact is ratem to entry observer, that this other possessions. Ples as a speat commercial point. The fact is platent to every observer that this city possesses natural recourses maxically by any place in the fact and the control of the property of the property of the platent of the point should nake it they when market of Eastern Oregon, and the wast quantities of wood handled overy keasen, direct from the producers, should be a surce of wealth to our business men. Aside for the they were the producers, should be a surce of wealth to our business men. Aside for the the producers, should be a surce of wealth to our business men. Aside for the base structions to capitalize; the fruits of the Da less are the best in the Northwest, and find ready sale in lar Eastern cities. Then the fishing industry is une her and important factor of commercial and in a low years this will be a source of wealth of the plate of the work that is many advantages of The ballegers to work the many advantages of The ballegers to work the work of the commercial pring.

"I own to-day a lot on Riverside avenue, three blocks from the peadoffice, which is in the center of the city, which I will self for \$500 a front foot, is there any person owning a lot within three blocks north or south of Stark and First who will self for trobe that amount? I this fall seld a half block, which is equal to a full block in Portland, exactly one mile from the center of the city, one block from Mooroe street, which is 150 leading business street running north and south for \$3500. Does any one know of a block, situated in the same relative position in Portland, Tacomu or Sentie for sale at the same price.
"A sale was made this fall of three lots, each 50x10 feet on the corner of Eighth and Mooroe streets, which relatively would be about Tenth and Washington streets in Parland for \$3500. These lots are situated on a street that has a cable road, on top of the cliff, commanding one of the most beautiful senses in any city. These prices are all about on steepens under my observation and are everage prices.
